PROFESSIONAL SUMMARY

AI Ethics, Governance & Security Analyst with an M.Sc. in Computer Science focusing on AI risk quantification, algorithmic auditing, and regulatory compliance. Working knowledge of NIST AI RMF, ISO/IEC 42001, the EU AI Act and India's DPDP Act, with Python and ML grounding to translate regulation into practical controls. Seeking roles in AI governance, AI risk and compliance, responsible AI, or AI safety and security.

SKILLS

Regulatory & Governance : NIST AI RMF, ISO 42001, EU AI Act, India DPDP Act, US State AI Laws.

AI Safety & Risk : AI Risk Assessment, Fairness Metric Analysis (FPR/FNR, Calibration), Harm Assessment, Control Design Human-in-the-Loop Oversight, Prompt Injection Security, Shadow AI Mitigation, Data Provenance

Governance Deliverables : AI Risk Assessments, Responsible AI Policy, Third-Party AI Vendor Risk Framework, Regulatory Comparison Matrix, Implementation Roadmaps.

Technical : Python, MySQL, Machine Learning, Prompt Engineering, HTML, CSS, JavaScript.

Tools & Platforms : PowerBI, Tableau, Excel, PowerPoint, GitHub, Azure.

PROJECTS

Enterprise AI Risk & Governance Assessment (ISO 42001 & NIST AI RMF)

- Applied all four NIST AI RMF functions (Govern, Map, Measure, Manage) to rate 6 LLM risks (hallucination, prompt injection, PII leakage) and established HITL controls with a 3-phase RBI/DPDP roadmap.

Third-Party AI Vendor Risk Assessment & Vetting Framework

- Built a 5-tab Excel vetting model (61 questions, 4 decision bands, 9 red flags); validated vendor risk triggers based on the CVSS 9.4 Salesforce ForcedLeak vulnerability.

Algorithmic Bias Audit & Analysis

- Audited COMPAS dataset (7,214 defendants); applied Chouldechova / Kleinberg fairness impossibility theorems to explain FPR/FNR trade-offs and formulated 6 bias mitigation controls.

Cross-Jurisdiction AI Regulatory & Compliance Brief

- Evaluated EU AI Act, US State Laws (TX, CA, CO), and India's DPDP Act for credit-scoring AI; recommended a jurisdiction-agnostic strategy baseline adhering to the strictest regime.

Enterprise Responsible AI Policy & Shadow AI Governance

- Authored a 16-section policy featuring a 4-tier risk classification system, 8 lifecycle stages, strict Shadow AI restrictions, AI security testing, and 24-hour incident escalation protocols

EXPERIENCE

Frontend Developer Intern | GPT Softwares | Jan 2025 - May 2025

- Collaborated with engineering teams to build web interfaces and integrate REST APIs using HTML, CSS and JavaScript.
- Implemented strict input validation and front-end data-handling controls to uphold system integrity and application security.

EDUCATION

Master of Science In Computer Science | Savitribai Phule Pune University | CGPA : 9.27 / 10 | 2023 - 2025

Bachelor of Science In Computer Science | Savitribai Phule Pune University | CGPA : 8.28 / 10 | 2019 - 2022

CERTIFICATION

- **AI Security & Governance** – Securiti AI | **Ethical Considerations for Generative AI** – IBM
- **Microsoft Azure AZ-900 Certified** – Microsoft | **Agentblazer Champion 2026** – Salesforce
- **HubSpot Reporting Certified** – HubSpot Academy
- **Job Simulations** : Tata (ESG), Mastercard (Advisors & Consulting), Siemens Mobility (Project Management) – Forage
